

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products, that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmier's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmier's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmier & Co., Binghamton, N. Y., and enclose ten cents; also mention the Norwich Daily Bulletin. Large and medium size bottles for sale at all drug stores.

THIRD POLICE SERGEANT

STILL REMAINS UNSETTLED

When all the democratic members of the common council, accompanied by Mayor J. Desmond, looked off by themselves before the council meeting opened Monday night and went down stairs to the city hall building to Police Chief George Linton's room, where they held a meeting, it was reported in the council chamber that they would come back with a nomination for the place of third sergeant of the police force. But nothing of that kind happened in the council meeting.

After the council meeting, Mayor Desmond declined to say what had been under discussion, but admitted that police matters had been discussed as well as some other things. He admitted also that it was probably safe to assume that the only person present at the conference were the democratic members of the common council.

It is understood that the situation on the appointment of a third sergeant is at a deadlock with the votes evenly divided between Officer John T. Casey of Greenville and Officer Charles Smith, who is stationed at the police headquarters. The vote is said to stand 2 to 2 with another member of the council who will not vote for either.

The policemen have been urging that the third sergeantcy question be settled as long as it was considered worth while to have this position on the force authorized.

Sharp Controversy in Town Meeting

The tranquility and harmony of the annual town meeting in 1919, held Monday evening in the town hall, received a decided jolt about ten minutes after the meeting had been called to order by Chairman Henry H. Pettit.

Resolved, That the section of the committee's resolution pertaining to salaries be amended to read as follows: The salary of each member of the board shall be \$1,200 a year with an extra allowance of \$240 to cover all necessary clerical duties of the said board of assessors. And further provided that one or more members of the board shall be on duty during the business hours of each business day of the year, unless conditions should arise whereby the services of three assessors were necessary to satisfy any emergency of property.

In presenting the amendment, Mr. Lerou said he was present at the last annual town meeting when the resolution calling for the formation of the committee to inquire into the conditions in the assessors' office and to make recommendations, was introduced. He said he was not particularly interested in any of the three assessors any more than to secure the square deal and for the interests of the town.

He expressed himself as heartily in favor of the committee's report, disavowing them only in point of salaries. Mr. Lerou said he felt the amendment should prevail for the simple reason that harmony should prevail on the board, and he also said he would support the amendment as a part of their time in the office, in accordance with a previous resolution adopted in town meeting.

Walter W. Lang said he did not see why two of the assessors should receive \$1,440 and the clerk \$1,440 and be required to be in the office all the time.

Mr. Lerou said it was not intended that the clerk should be in the office all the time. He believed that a previous resolution called for one or more of the assessors to be present in the office during the business hours of the town clerk. "I like to ask the town clerk," he continued, "who is in the office?"

Mr. Holbrook, town clerk, said that in the morning one or three of the assessors could be found in the office and that in the afternoon Mr. Curran was generally there.

"I was the author of that famous resolution that is so much in discussion here tonight," said Mr. Curran. He went on to say that Mr. Lerou had stated that if the resolution (that introduced by Mr. Noyes) was passed, harmony will not prevail in the board and further would be on to attack intimations which he claimed Mr. Lerou had made while speaking. Mr. Curran said he was questioned any man's right to get up on the floor and make such statements as Mr. Lerou had made. "The committee has been elected here tonight," said Mr. Curran.

"I presented that resolution (at the town meeting last fall), so that the city of Norwich would look up with pride to the assessors' office. Mr. Curran said, and he went on to state that it was a step that should have been taken years ago. In past years men were willing to go into the assessors' office for a salary of \$400 or \$400 because they could carry on their other work at the same time. When it is intimated that a certain member of the board should be clerk it is a step that should have been taken years ago. Mr. Curran extended an invitation to anyone to visit the assessors' office and said that if they did not come away with a different impression then he "was through."

Mr. Lerou said he thought Mr. Curran was a little too severe in his criticism. He said he would like to ask the committee not to take up a name for a job for Mr. Curran's assertion. Mr. Lerou said he fully realized Mr. Curran's words on the board.

As the end of the debate seemed to be in sight, the chair took a hand and cleared the atmosphere by reminding the two gentlemen that the question before the house was the amendment and the vote was then called for, by acclamation.

As the chair was in doubt as to the result it was decided to call for a vote and the two tellers to count the vote as the voters passed on the left to right in front of the desk and Jeremiah A. Desmond and John T. Fitzpatrick were the choice for tellers. The vote was called for the following result:

Total votes cast, 54. Necessary for choice 28. Yes, 23; No, 29. The amendment was declared lost.

The only other matter to come before the meeting was the laying of the town tax and the following resolution was adopted:

Resolved, That a tax of 17-1-4 mills on the dollar be laid on the grand list of the town last completed, to be used for the following purposes:

One-half cent to be applied to the sinking fund and the other half to be used for paying the expenses for the town, including the state and county schools and expenses of the public schools, for the present fiscal year.

The meeting adjourned at 8:45 o'clock.

SHAKESPEARIAN MUSIC ON MARCH MEETING PROGRAMME

The regular March meeting of the Norwich Music Association was held in Slater Hall Annex Monday evening, an interesting Shakespearian programme having been provided by the committee. The programme was composed of each meeting an individuality of its own.

Dr. J. H. Selden, president, addressed the members briefly, stating that as April would bring the annual meeting, a nominating committee was in order, naming as such, Mr. Yerrington, John H. Perkins, and Miss Louise C. Howe. Dr. Selden also alluded to the change in the programme, in the programme, through the death of F. H. Simmonds, who was to have sung, and the general regret that Mrs. William Crowe was prevented through illness from taking her part.

Miss Hannah N. Crowe's scholarly, thoughtful paper on Shakespearian music, interspersed with delightful bits of humor and apt quotations, opened the programme of the evening. The programme was intensely musical, and in thirty-two of his plays he makes mention of music. In the dedication by Mrs. William Crowe, it was stated that in 1613 of the old Globe Theater, much of the original music used as accompaniments for his songs were burned, so in only a few cases do we possess the scores as played in Shakespear's time. It was during the 16th century that instrumental music began to divide itself from vocal, for in ancient times dances were always sung. The accompaniment in Shakespear's first music was played by musicians, eight or ten in number, who sat in a sort of upper gallery, out of sight. Miss Crowe stated that two songs on the programme, "Music Be the Food of Love" and "She Never Told Her Love," would be sung to the original music, written in the 16th and 17th centuries, respectively. Helgh-ho! For a Husband was also sung to the original melody.

Mrs. Herbert Richardson then rendered, "She Never Told Her Love" (Haydn) and "The Food of Love" (Perrin) in a charming, clear mezzo-soprano, singing the quaintly archaic melodies with much poetic feeling and temperament.

So Sweet as Kiss the Golden Sun Gives Not, and It Was a Lover's Love, sung with music by de Koven, were delightfully rendered by Mrs. Morgan Cronin, who has a high lyric soprano voice of lovely quality. Mrs. Reuben P. Potter's high contralto, Mrs. Herbert Richardson then rendered, "She Never Told Her Love" (Haydn) and "The Food of Love" (Perrin) in a charming, clear mezzo-soprano, singing the quaintly archaic melodies with much poetic feeling and temperament.
